Space design is a sum of all arts. It combines knowledge of architecture, construction, carpentry, planning, circulation, lighting/ electric wiring, furniture, painting, art movements, social needs and psychological factors.

It is a three dimensional manifestation of the entities' philosophy and ethos. This area is concerned with the well being of the user in terms of ergonomics as well as ambience. It is more a science than mere aesthetics.

Formed by a group of professional designers and engineers, MIND'S EYE in a short while has successfully designed and executed projects for corporate clients, institutions as well as private residences.

At MIND'S EYE DESIGN, we understand the requirement of unity of form and style for every entity. Thus, the unity is present in every design yet, everyone has an individualistic style and that is kept at the heart of every design.

Well versed & exposed to technology be it IT, access control, fire systems, intelligent building systems, fibre optics lighting or even manufacturing processes and materials.

We are well versed in technology as well as PERT / CPM, so our projects go smooth and on time and with no budget overruns.

Corporate offices to one of a kind exclusive residences, from computer centers to farm houses, auditorium to personal home theatre spaces;

MIND'S EYE DESIGN has designed over 10,00,000 sq. ft. of interior space valued at over 120 crore rupees.

Our in-house experts are from Industrial Design, Interior Design, Exhibition Design, Communication Design, Electrical Engineering,
